Editor of CRESSET.

Dear Sir: If you still have the manuscript on the Sabbath which I sent you some time ago, please print it and I will complete the statement on the Sabbath of the New Testament before long. If you did not save the manuscript, kindly say so in your next issue, and I will restate it, with some changes perhaps. Mr. Perkins wrote an excellent and scholarly series of papers, and no one appreciates the ability shown more than I do; but he has not touched upon some points which to me are vital points. As I intimated before—I do not carry on this debate for the mere fun of disputing or disagreeing; but conscientiously and publicly promise that if Mr. Perkins can convince me that the old seventh day Sabbath is wrong, I will publicly change my position. He did make some very strong points which I will refer to more at length later with this introduction, he and others will understand that however great our differences may be, I have no desire to wound, but only that God will lead us all into the truth, whatever it may be. Thanking you for former courtesies, I am Truly Yours,

Mrs. Adelaide Cooper.

—We have printed all your articles that we have received. The last article we got was published June 4th. 1903; CRESSET No. 12.
